ACKNOWLEDGEMENTS

To Every Little Green Explorer

Thank you for opening this book and beginning your
Green Explorer Adventure.

Every question you ask, every leaf you touch,
every seed you plant, and every tiny step you take
is something to celebrate.

This adventure is not about being perfect.
It is about being curious, brave, and willing to explore something new.

To the Parents and Caregivers

Thank you for choosing connection over pressure, curiosity over control,
and progress over perfection.

The small moments you share with your child today—exploring greens,
planting seeds, creating together, and celebrating tiny wins—can
become memories that last a lifetime.

This adventure would not be possible without your
encouragement, patience, and love.

A Special Thank You

To every child who inspired this journey.
To every family who believes that healthy habits can grow through play.
And to every little explorer who reminds us
that learning begins with curiosity.

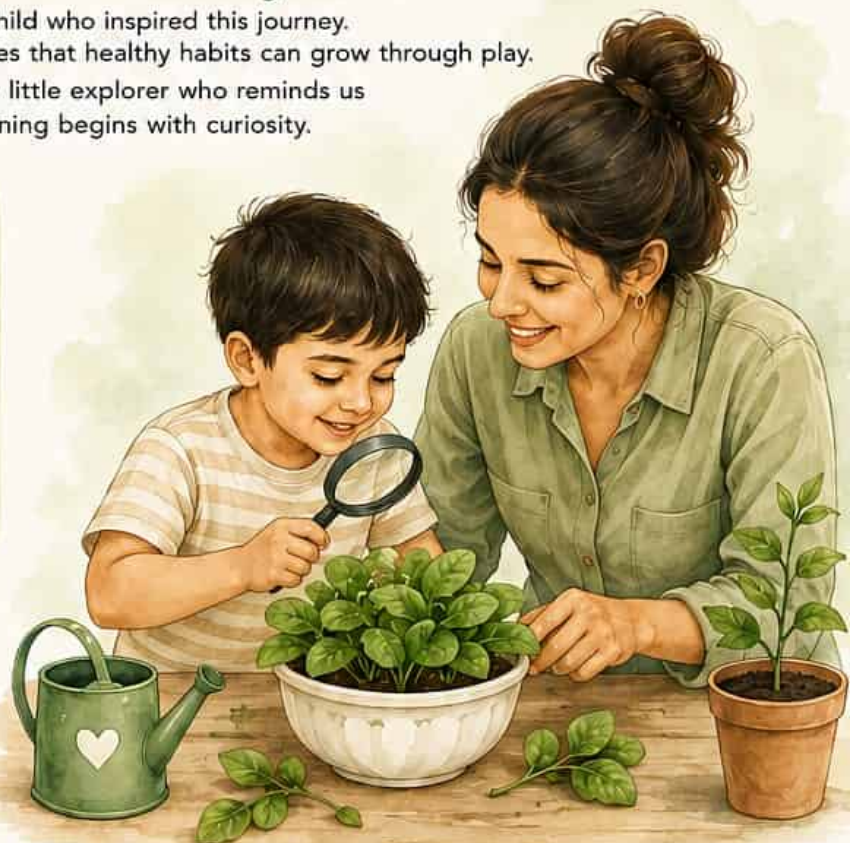

Remember ♥

- ♥ Every touch matters.
 - ♥ Every question matters.
 - ♥ Every tiny step matters.

MEET THE *Author*

Hi, I'm Prerna Sultania ♥

I'm a passionate creator, educator and mom who believes that healthy food habits don't start with pressure—they start with **curiosity, connection and creativity**.

My journey began as a parent who wanted something better—a fun, positive and meaningful way to help children explore greens without the daily battles.

That's how the **Eat Your Green Series** was born—to make exploration joyful, mealtime peaceful and healthy habits something kids look forward to.

Through the Eat Your Green Series, my mission is to help families replace food battles with moments of **curiosity, connection, creativity and consistency**. I believe that healthy habits grow best when children feel safe, engaged and excited to explore.

My Promise to You ♥

I created this series with one goal—to give families simple, engaging and effective tools that turn mealtime struggles into moments of connection and celebration.

You're not alone in this journey.
I'm so happy to be exploring it with you. ♥

“ Big habits grow from small moments of exploration.

With gratitude, ♥
